

JEEVAN BODLAPATI

AI Full Stack Developer

Hyderabad, India | +91 9014345907 | 2310030160cse@gmail.com | linkedin.com/in/jeevan-bodlapati/ | github.com/BodlapatiJeevan160

PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, Data Engineering for AI, CGPA 8.45/10) with hands-on experience building LLM-powered applications, multi-agent automation pipelines, and full-stack AI integrations. Practical exposure to retrieval-augmented generation (LlamaIndex), prompt engineering, and evaluation pipelines for AI output quality (precision/recall/F1). Comfortable across the AI/backend boundary: building Flask-based REST APIs that serve LLM-driven features and connecting model outputs directly to frontend UI components. Currently expanding into cloud deployment (AWS) and modern frontend frameworks (React/Next.js). Seeking a Full Stack AI Engineer role to contribute to the intelligence layer of AI-driven products.

TECHNICAL SKILLS

Programming Languages: Python, Java (limited), HTML, TypeScript (working knowledge)

AI / LLM Engineering: Prompt Engineering, LLM Integration (OpenAI, Claude, Gemini), Agentic AI

RAG & Retrieval: LlamaIndex, Retrieval-Augmented Generation, Embeddings (applied project-level use)

Evaluation & Metrics: Precision/Recall/F1 evaluation, hallucination & consistency detection, weighted scoring systems

Backend & APIs: Flask, REST API design, FastAPI (familiar)

Automation & NLP: N8N Multi-Agent Workflow Orchestration; NLTK, rule-based NLP, Speech Recognition, Text-to-Speech

Tools: Git, GitHub, VS Code

PROJECTS

VeritasAI — LLM Hallucination & Contradiction Detector

github.com/BodlapatiJeevan160/prototest-ai-ml-task

- Built a 5-layer rule-based evaluation pipeline with a weighted scoring algorithm, achieving Precision, Recall, and F1 scores of 1.00 on hand-crafted test cases.

Stack: Python, NLTK, NLP, Evaluation Metrics

AI-Driven Data Analysis Platform

github.com/BodlapatiJeevan160/AI-drivenDataAnalysisAPP

- Architected a multi-agent backend with 4 specialized AI agents and designed REST API endpoints connecting agent outputs to the frontend, mirroring the model-inference-to-UI flow.

Stack: Python, N8N Automation, LLM Models, REST APIs

Smart Artisan Assistant

- Integrated Claude API into a frontend application for AI chatbot and image-analysis features, connecting model outputs directly to UI components.

Stack: HTML, JavaScript, TypeScript, Claude API

Jarvis Voice AI Assistant (In Progress)

- Designing a Python-based voice-first conversational assistant integrating speech recognition, text-to-speech, and multi-language NLP support.

Stack: Python, SpeechRecognition, pyttsx3, NLP

EXPERIENCE

AI / Technology Intern — EZMLR Technology

3 Months

- Contributed to AI-driven software development tasks involving model integration and backend infrastructure, collaborating with engineering teams on automated workflows, API integration, and debugging real-world applications.

EDUCATION

B.Tech — Computer Science and Engineering (Data Engineering for AI)

KLH University, Hyderabad | 2023 – 2027 (Expected)

- CGPA: 8.45 / 10.0
- Relevant Coursework: Machine Learning, Natural Language Processing, Data Pipelines, AI Systems, Cloud Computing

CERTIFICATIONS

- Prompt Engineering Certification — Columbia University / OpenAI | Sep 2025 | ID: 161525702
- Gemini Certified Student — Google | Oct 2025 – Oct 2028
- Linguaskill English Proficiency — Cambridge University | May 2024 | ID: IA143C2AZ-H103-25/G
- Advanced Automation Professional — Automation Anywhere
