

JEEVAN BODLAPATI

Software Developer

Hyderabad, India | +91 9014345907 | 2310030160cse@gmail.com | linkedin.com/in/jeevan-bodlapati/ |
github.com/BodlapatiJeevan160

PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, Data Engineering for AI, CGPA 8.45/10) with hands-on experience building full-stack applications, REST APIs, and backend services. Practical exposure to Python and Flask for backend development, with working knowledge of TypeScript and JavaScript for frontend integration. Experience designing and consuming REST API endpoints, debugging real-world applications, and collaborating with engineering teams on production-style workflows. Comfortable with Git-based version control and currently expanding into cloud deployment (AWS) and modern frontend frameworks (React/Next.js). Seeking a Software Developer role to contribute to backend and full-stack engineering.

TECHNICAL SKILLS

Programming Languages: Python, Java (limited), HTML, CSS, JavaScript, TypeScript (working knowledge)

Backend & APIs: Flask, REST API design, FastAPI (familiar)

Frontend: HTML, CSS, JavaScript, React/Next.js (learning)

AI/LLM Integration: OpenAI, Claude, Gemini API integration, Prompt Engineering

Automation: N8N Workflow Orchestration

Tools & Platforms: Git, GitHub, VS Code, Cloud Deployment (AWS - in progress)

PROJECTS

AI-Driven Data Analysis Platform

github.com/BodlapatiJeevan160/AI-drivenDataAnalysisAPP

- Architected a multi-agent backend with 4 specialized agents, each handling a distinct stage of data processing and insight generation.
- Designed REST API endpoints to connect backend agent outputs to the frontend, implementing a clean model-inference-to-UI data flow.

Stack: Python, Flask, REST APIs, N8N

Smart Artisan Assistant

- Built a full-stack frontend application integrating the Claude API for chatbot and image-analysis features.
- Connected model outputs directly to UI components across a 5-page application with demo login and sample data.

Stack: HTML, JavaScript, TypeScript, Claude API

Jarvis Voice AI Assistant (In Progress)

- Designing a Python-based voice-first conversational assistant integrating speech recognition, text-to-speech, and multi-language NLP support, with natural conversation flow handling.

Stack: Python, SpeechRecognition, pyttsx3, NLP

VeritasAI — LLM Hallucination & Contradiction Detector

github.com/BodlapatiJeevan160/prototfine-ai-ml-task

- Built a 5-layer rule-based evaluation pipeline with a weighted scoring algorithm, achieving Precision, Recall, and F1 scores of 1.00 on hand-crafted test cases.

Stack: Python, NLTK

EXPERIENCE

AI / Technology Intern — EZMLR Technology

3 Months

- Contributed to AI-driven software development tasks involving model integration and backend infrastructure.
- Collaborated with engineering teams on automated workflows, API integration, and debugging real-world applications.

EDUCATION

B.Tech — Computer Science and Engineering (Data Engineering for AI)

KLH University, Hyderabad | 2023 – 2027 (Expected)

- CGPA: 8.45 / 10.0
- Relevant Coursework: Machine Learning, Natural Language Processing, Data Pipelines, AI Systems, Cloud Computing

CERTIFICATIONS

- Prompt Engineering Certification — Columbia University / OpenAI | Sep 2025 | ID: 161525702
- Gemini Certified Student — Google | Oct 2025 – Oct 2028
- Linguaskill English Proficiency — Cambridge University | May 2024 | ID: IA143C2AZ-H103-25/G
- Advanced Automation Professional — Automation Anywhere
